PROFILE

Computer Engineering undergraduate with an interest in software development, web technologies, embedded systems and technology-driven solutions. Passionate about learning new technologies and turning ideas into practical projects through creative problem solving.

EDUCATION

Computer Engineering Undergraduate

KDU | 2025 – Present

Relevant areas: Programming, Web Development, Databases, Embedded Systems, IoT and Software Engineering.

TECHNICAL SKILLS

Programming: Java, C++, SQL

Web: HTML, CSS, JavaScript

Embedded: ESP32, Arduino, Sensors

Database: MySQL Workbench

Tools: VS Code, Arduino IDE, NetBeans, Canva, Git/GitHub

PROJECTS

Smart Environmental Control System

ESP32-based environmental monitoring and automated irrigation concept using DHT11, soil moisture and LDR sensors, with relay-controlled watering.

Java Management System

Java application demonstrating object-oriented programming, user interaction and data management.

Personal Portfolio Website

Responsive portfolio website built with HTML, CSS and JavaScript to showcase skills, projects and achievements.

EXPERIENCE & ACTIVITIES

- University practical laboratory work
- Academic and group projects
- Embedded systems and IoT project development
- Independent technology learning

ACHIEVEMENTS & CERTIFICATIONS

- Academic project development and practical laboratory experience
- IoT / embedded systems learning and project work
- Online learning and technology certifications — simplilearn introduction to HTML course
- Workshops / technical events — Active student member of the IEEE, with direct participation in technical knowledge-sharing events including the International Research Conference (IRC) and the annual university academic symposium, focusing on emerging computing trends, software engineering, and hardware concepts.
